

Canvas Studio for Video Discussions

These instructions will describe how to add or record videos with Canvas Studio for a Discussion. Also, a [Video Demonstration](#) of the steps is available.

- 1) In the Discussions area, reply to the prompt. In the content editor, select the Apps button (looks like a plug). Select Canvas Studio.

- 2) If you already recorded your video, select Add Video. Find your video, add it, and skip to Step 6. To record your video, select **+ Create** and **Studio Capture**
- 3) Allow your camera and microphone if prompted.
- 4) Select **Start Recording** and record your video.
- 5) When you are satisfied with your recording, select **Save Media**. Your video will now be in your Studio Library.
- 6) Select the video, then **Embed Media**, and **Reply**. The video will now be in the Discussion area.

Follow the same steps any time you wish to add a video to a Discussion.
